

ATI Testing Policy

This policy applies to all students using ATI testing for proctored exams or any other course or program requirements

ATI Practice Assessments

Students are required to complete the assigned ATI Practice Assessments A and B, and remediate with a focused review (2 hour minimum for each focused review) prior to sitting for the Proctored Assessments. Proof of completion of practice assessments and focused review must be printed and turned in prior to the start time of the Proctored Assessment.

ATI Proctored Assessments

1. Students are required to take the ATI Practice Assessments and Proctored Assessments related to the course content each semester, as applicable:
 - a. Semester II- Fundamentals of Nursing
 - b. Semester III- Adult Medical Surgical, Mental Health, Maternal Newborn, Nursing Care of Children, Pharmacology, and Comprehensive Predictor
2. Students are required to retake the Fundamentals of Nursing and Adult Medical Surgical Proctored Assessments until they achieve a Level 1. Two retakes will be permitted (3 attempts total). However, the first score will be utilized in grading.
3. The student must reach Level 1 on the ATI Fundamentals of Nursing Proctored Test in order to progress to the third semester.
4. The student must reach Level 1 on the ATI Med/Surg Proctored Test in order to progress to the next courses, which are Mental Health Nursing, Maternal Health Nursing, and Pediatric Nursing.
5. Students are required to achieve 65% Individual Score on the Comprehensive Proctored Assessment.
6. Students are required to complete 50% of Virtual ATI by the end of the program.
7. Students will be given two opportunities to repeat the PN Proctored Comprehensive Predictor until a 65% Individual Score benchmark is met (3 attempts total).
8. If a student fails to reach the benchmark after three attempts, the student will be required to complete 100% of Virtual ATI to meet the course requirements.

Virtual-ATI® NCLEX-PN® Review Checklist

The Virtual-ATI NCLEX Review Checklist uses mile markers to help roadmap your progress in the review. Download this checklist to your computer or your device and track your review progress and module completion. If needed, download a free copy of [Adobe Acrobat Reader](#).

Upon achieving the 100% completion mark and completing all of the modules (NCLEX Strategies through Management), your Virtual-ATI Coach will analyze your results to identify any remaining deficits requiring additional review.

Only after you have completed all additional assessments, review recommendations, and the assessment scores indicate your readiness for the Virtual-ATI Comprehensive Predictor, will your Virtual-ATI Coach instruct you to move to the final module within the Virtual-ATI NCLEX Review and complete the 150-item Comprehensive Online Practice Assessment.

IMPORTANT:

Only after all required items are completed will your Virtual-ATI Coach provide the instructions to complete the Virtual-ATI Comprehensive Predictor.

EVALUATION	
Complete the Virtual-ATI End of Program Survey	
Upon receiving results, notify your Coach of your NCLEX results	
Green Light Expired	
The Virtual-ATI Green Light expires 3 weeks from the date it was achieved. Graduates should test for NCLEX within three weeks of receiving the Green Light.	

Progression in Virtual-ATI is determined by individual graduate participation, performance, and active engagement in the review. Active engagement/participation in Virtual-ATI includes communicating with the Coach, taking assigned assessments, completing assigned remediation activities and focused reviews under the direction of the Coach.

Virtual-ATI will be accessible until the graduate passes NCLEX up to a maximum of 12-weeks. As the end of the review approaches, graduates should download the Post Review Study Guide Resources to continue to review and stay connected to content through their NCLEX date. As access ends, graduates may purchase an additional 12-week access for a discounted rate. Repurchasing the review will provide an additional 12 weeks of review with Coach support to build knowledge and testing confidence for the NCLEX exam.
